

Vitax Blood, Fish & Bone contains the three major nutrients essential for strong and healthy growth. Nitrogen encourages strong growth and healthy rich green foliage, whilst the slow, steady release of phosphate promotes vigorous root growth. The added Potash promotes flower colour and improves ripening in fruit and vegetables.

DIRECTIONS FOR USE

PRIOR TO SOWING OR PLANTING:

Apply 140 grammes per square metre (4oz per square yard) and lightly fork or rake into the soil.

AS A TOP DRESSING:

Apply 70 grammes per square metre (2oz per square yard) around the plants and fork in lightly.

Should rain not fall within 24 hours, water in well.

HELPFUL ADVICE

Read the directions carefully before use.

Store the fertiliser in a dry place away from children, pets and foodstuffs.

Product may irritate cut or broken skin. Wash hands after use.

Do not exceed the recommended application rates.

Avoid the fertiliser lodging on leaves and stems.
