

Granular Garden Lime

A soil conditioner and source of calcium and magnesium in an easy to use, virtually dust free granule

- ✓ Neutralises acid, sour soils
- ✓ Improves drainage of heavy, clay soils

10 Kg

Vitax Granular Garden Lime is an easy to use product dispersing readily soon after application and having all the advantages of powdered lime, without the handling problems of a dusty material.

- Neutralises acid (sour) soils enabling beneficial soil bacteria to flourish and release the plant foods 'locked in' by acid soils.
- Improves the drainage of heavy clay soils making them more friable and easier to work.
- Eliminates the conditions under which club root disease in cabbages and other brassicas thrive.
- Easy to handle, low dust granule

DIRECTIONS FOR USE

Acid Soils:
Apply annually, preferably from September onwards, at the rate of 200-400 g/m². (6-12 oz per square yard).

Normal Soils:
Apply every two or three years at the rate of 200 g/m² (6 oz per square yard).

Home Composting:
Use Granular Garden Lime to speed up the composting of garden waste. For an open compost heap for each 20cm (8 inches) of garden waste sprinkle 60 g/m² (2 oz/sq yd) of garden lime followed by further 20cm (8 inches) garden waste then 60 g/m² (2 oz/sq yd) sulphate of ammonia or dried blood. Repeat until the heap is 1.2m (4ft) high then cover and allow to compost.

HELPFUL ADVICE

Read the directions carefully before use.
Store the fertiliser in a dry place away from children, pets and foodstuffs.
Product may irritate cut or broken skin. Wash hands after use.
Do not exceed the recommended application rates.
Avoid product lodging on leaves and stems.

MIXED LIME

Neutralising value (CaO)	51.0%
Percentage passing 6.3mm sieve	100%
